- Linear algebra

LANGUAGES

- English | Advanced
- German | Intermediate. B1 certificate

EXPERIENCE

ANALYST INTERN   Nov 2019 - Feb 2020
HDFC Bank

- Facilitated new account openings and resolved customer issues related to the process.

- Conducted data analysis to classify and segment customers, enhancing service delivery and identifying trends.

- Analysed customer feedback and account data to improve processes and address common hindrances.

-Provided support and information on bank products, ensuring a positive customer experience.

EDUCATION

BUSINESS ENGINEERING   2022 - Present
Technische Hochschule | Schweinfurt, Germany

- Analysed process and machine capabilities in shaft production.

-Developed a statistical model in python to optimize portfolio, yielding robust results in bear market (used tools like pandas, numpy and matplotlib).

-Worked on ERP systems (SAP, Applus) to research and structure production processes in addition to system implementation.

-Designed different mechanical components using Creo.

PROJECTS

I have included examples of my projects on my personal website, www.murtaza-fluxin4thd.com.
